

# COVID PREVENTION

THOMPSON  
SEATTLE

At Thompson Seattle, health and safety is our top priority for our Guests and Team Members. We would like to share with you the methods we are committed to, to which we will dedicate time, patience and extreme thoughtfulness. As a part of the Hyatt family, we will be pairing these methods with Hyatt's Global Care & Cleanliness Commitment.

These efforts will further enhance Thompson Seattle's existing rigorous cleaning practices and will guide our Team Members so that our Guests are able to enjoy their stay with peace of mind. This multi-layered commitment is designed to go beyond cleanliness and includes a holistic approach to wellbeing. Key enhancements will include:

- Building on existing **exceptional cleanliness and facilities scores**; consistently in top 95th percentile as evaluated by Medallia NPS and ongoing monthly **Team Member training and support resources**.
- Appointing a **Director of Hygiene and Facilities** to oversee all methods and practices, thinking forward in this ever-changing environment and considering CDC and WHO guidelines.
- Accreditation by the **Global Biorisk Advisory Council (GBAC)** at all Hyatt hotels around the world.
- At the onset of the COVID-19 crisis, Hyatt assembled a cross-functional response team and engaged infectious diseases and occupational health experts to support efforts with COVID-19 research findings and information.

## GENERAL METHODS

- State of the art **keyless and touchless mobile check in and check out** capability through the World of Hyatt app, available to all Guests. Guests will be able to pre-check into their room, the day of arrival. Our app will alert Guests as to when their room is ready and give them their room number. They can then bypass guest services altogether and use the app as a key to enter their clean and ready room.
- Over **40 touch-less sanitation stations** throughout the hotel; all entrances, elevators, guestroom floors, event spaces and public spaces and complimentary sani-wipes plus additional preventative protection available for guest use.
- **Social distancing guidelines will be posted** for Guests and Team Members to observe; including 6-foot floor markers and directional signage.
- Daily Team Member temperature checks will be performed upon entry into Hotel; **Team Members will be wearing personal protective equipment at all times** to include approved and hotel issued gloves and masks.
- Hourly public area, restroom, and elevator sanitation with **EcoLab EPA-registered disinfectant**.
- **Use of an Electrostatic Sprayer** in all public spaces which kills viruses, bacteria and pathogens.
- **Public seating areas have been re-arranged** in observance of proper social distance.
- **Plexi-glass guards** have been installed at guest service desk, The Nest host stand and bar, and Conversation bar.
